Hartford, WI 53027

Subject: Amended Reregistration Label  
Product Name: Flying Insect Killer II  
EPA Registration Number: 46813-68  
EPA Decision Numbers: 411880 and 410132

Dear Ms. Killoren:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the reregistration of the above referenced product in connection with the PBO and pyrethrins REDs, and has concluded that your submission is acceptable.

NOTE: This product is **not** being reregistered under sections 3(c)5 and 4(g) of FIFRA at this time.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label or durably marked on the container itself, and can be added by non-notification per PRN 98-10.

Please note that the record for this product currently contains the Confidential Statements of Formulation (CSFs) listed below. Any previously dated CSFs are superseded.

- Basic CSF, dated 2/23/12

A copy of your label stamped "Accepted" is enclosed along with copies of the acute toxicity and product chemistry reviews completed for the subject product. Products shipped after 12 months from the date of this amendment or the next printing of the label whichever occurs first, must bear the new revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec.

6(e).

If you have any questions about this letter, please contact Dr. Jennifer Urbanski at 703-347-0156 or [urbanski.jennifer@epa.gov](mailto:urbanski.jennifer@epa.gov).

Sincerely,

*[Handwritten signature]*

# Flying Insect Killer II

**For Indoor Use in the Following Areas: Food Processing Plants, Hotels, Motels, Restaurants,  
Stores and Other Public Buildings  
(except hospitals, schools, day-care facilities, nurseries and nursing homes)**

**Use in Barns, Breweries, Dairies, Canneries, Farm Milk Houses and Food Handling Establishments**

**Kills Flies, Gnats, Mosquitoes and Small Flying Moths**

**Active Ingredients:**

Pyrethrins .....	1.8%
Piperonyl Butoxide, technical* .....	10.0%
<b>Other Ingredients**</b> .....	<u>88.2%</u>
Total .....	100.0%

\* (butyl carbityl)(6-propylpiperonyl) ether and related compounds.

\*\* Contains petroleum distillate.

**Keep Out of Reach of Children**

## CAUTION

**See back [side] panel for First Aid and additional Precautionary Statements**

Net Weight \_\_\_\_ ounces (grams)

**ACCEPTED**  
MAY 3 2013

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act,  
as amended, for the pesticide  
Registered under  
EPA Reg. No. 46813-68

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

#### Use Restrictions

- This product can only be used in Metered Dispenser Devices
- Not for use in residential areas.
- Do not use in nurseries or rooms where infants, ill, or aged persons are confined.
- Do not place metering device directly over or within 8 feet of exposed food, dishes, utensils, food processing equipment, and food handling or preparation.
- Do not install within 3 feet of air vents.
- Carefully follow directions for the dispenser unit when installing the dispenser and replacing cans or conducting maintenance.
- Do not use in aircraft cabins.
- DO NOT use in areas where fish or reptiles may be exposed to the spray.
- Do not apply directly into sewers or drains, or to any area like a gutter where drainage to storm sewers, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after applications.
- Carefully follow directions for the dispenser unit when installing the dispenser and replacing cans or conducting maintenance.
- {Alternate text:}
  - [When used in dairy barns or facilities: Close milk bulk tank lids to prevent contamination from dead or falling insects. Remove or cover milking utensils before application. Wash teats of animals before milking.]

**Flying Insect Killer II** is designed for use in a wide range of automatic metered dispensers. The dispenser automatically activates the special metered valve every 15 minutes. Within 24 hours following treatment, a decrease in the number of flies, gnats, mosquitoes and small flying moths should be noticed and with continued use, annoyance from these pests should also be reduced. Effectiveness of this product is noticeable within one hour after the dispenser is activated. Recommended use is for 24 hours; if less than 24 hours is required, set the dispenser to start one hour before control is desired and to run one hour after control is no longer needed. Factors such as airflow rate, size of space treated, humidity and room temperature affect insect activity and control; therefore, consider one unit per 6,000 cubic feet of unobstructed space, making adjustments depending upon specific conditions at the usage site. As with any method of insect control, best results are achieved when positive insect prevention practices are followed. Carefully follow the directions for the specific dispenser unit of choice when installing the dispenser, replacing cans and conducting required maintenance.

#### Storage and Disposal

**Do not contaminate water, food or feed by storage or disposal.**

**Pesticide Storage:** Keep this product dry in a tightly closed (preferably locked) storage area when not in use. Store in a cool, dry, well-ventilated area inaccessible to children and pets and away from heat, sparks and open flames.

**Pesticide Disposal:** Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

**Container Handling:** Do not puncture or incinerate! If empty: Place in trash or if available offer for recycling. If partly filled: Call your local solid waste agency for disposal instructions.

5/6

**PRECAUTIONARY STATEMENTS**  
**Hazards to Humans and Domestic Animals**

**CAUTION:** Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

All handlers/installers must wear:

- Long-sleeved shirt
- Long pants
- Shoes and socks
- Chemical-resistant gloves (such as barrier laminate, nitrile or neoprene rubber, or viton, selection category E)

User Safety Requirements

- Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations:

- User should wash hands before eating, drinking, chewing gum using tobacco, or using the toilet.
- User should remove clothing /PPE immediately if pesticide gets inside or after handling this product. As soon as possible, wash thoroughly and put on [change into] clean clothing. Wash the outside of gloves before removing.

**First Aid**

**If on Skin or Clothing**

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents) you may call 1-800-xxx-xxxx or the National Pesticide Information Center at 1-800-858-7378.

**Note to Physician:** Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

{Note: The grid format will be used if market space allows; otherwise a paragraph format will be used.}

**Physical or Chemical Hazards**

Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish and aquatic invertebrates. Do not contaminate water when disposing of equipment, washwater, or rinsate. See Direction for use for additional precautions and requirements.

[Notice: Buyer assumes all responsibility for safety and use not in accordance with directions.]
